

SOLID GEAR DYNAMO

ART. SG10225

SOLID GEAR Dynamo is a unique combination of a shoe designed for trail as well as running. The complete ETPU midsole provides optimal comfort and rebound. The stability comes from the character of a trail shoe, with a special board construction for control of the flexing. The rubber outsole is developed to offer superior grip, and despite the lightweight of the outsole, it also contributes to the stability. The CORDURA® ripstop upper combined with the BOA® Fit System gives a great fit and feeling. Dynamo uses the specially developed high rebound OrthoLite® insole mainly made of recycled materials. Antistatic, oil resistance and anti-slip are all features of the rubber outsole that enables the SOLID GEAR Dynamo to be certified according to EN-20347:2012.

Upper: Ripstop CORDURA®
 Lining: Mesh
 Outsole: Oil and slip resistant rubber
 Midsole: ETPU
 Footbed: PU foam with highly breathable recycled materials
 Function: BOA® Fit System
 Fit: Wide
 Sizes: 35-48
 Safety standard: EN ISO 20347:2012 01, F0, SRC
