

SOLID GEAR PACIFIC

ART. SG80114

SOLID GEAR Pacific features the most advanced technologies and is in many ways a revolutionary safety shoe. A superlight high-performance EVA midsole combines with an anti-slip rubber outsole to provide a smooth and secure stride. In addition, the seamless upper mesh fabric offers excellent breathability while aluminum toe cap and composite plate ensure maximum protection. ESD function according to BS EN 61340-4-3:2002.

Upper: Lightweight seamless mesh with maximum breathability

Outsole: Oil and heat resistant and anti-slip rubber

Midsole: High performance injected EVA

Footbed: Breathable, EVA insole with poron pads
